// Import the Express.js library

```
const express = require('express');
```

// Create an Express application

```
const app = express();
```

```
const port = 3000;
```

// Define a route for the root URL ("/")

```
app.get('/', (req, res) => {
```

```
  res.send('Hello, this is the root route!');
```

```
});
```

// Define a route for "/hello"

```
app.get('/hello', (req, res) => {
```

```
  res.send('Hello, Express!');
```

```
});
```

// Start the server

```
app.listen(port, () => {
```

```
  console.log(`Server is running on http://localhost:${port}`);
```

```
});
```
